OFFICE OF  
ENFORCEMENT AND  
COMPLIANCE ASSURANCE

OCT - 1 2007

ZA/Environmental Manager  
Constellation Program  
NASA Lyndon B. Johnson Space Center  
Houston, Texas 77058

Dear Sir/Madam:

In accordance with National Environmental Policy Act (NEPA) and Section 309 of the Clean Air Act, the Environmental Protection Agency (EPA) has reviewed the National Aeronautics and Space Administration's (NASA) draft programmatic environmental impact statement (EIS) for the Constellation Program.

The purpose of the Constellation Program is to develop the flight systems and Earth-based ground infrastructure required to enable continued access to space and to enable future crewed missions to the international Space Station, the Moon, Mars, and beyond.

EPA believes that this programmatic EIS provides an adequate discussion of the potential environmental impacts of the proposed program. Therefore, EPA has no objection to the proposed action discussed in this draft programmatic EIS.

We appreciate the opportunity to review this draft programmatic EIS. The staff contact for this review is Ken Mittelholtz (202-564-7156).

Sincerely,

A handwritten signature in blue ink, appearing to read "Anne Norton Miller", is positioned above the printed name.

 Anne Norton Miller
